

AEMSA and ERF post substantial update to our Existing Research Citations list – now over 900 citations

Updated through 3/31/2016

The American E-liquid Manufacturing Standards Association (AEMSA) and the E-Research Foundation (ERF) jointly developed a new list of e-vapor related Research Citations. Various notable citations lists have been collated, culled (for repetitions and relevance, not agendas) and updated through 3/31/16. This new list is probably not completely comprehensive, but it is likely one of the more/most comprehensive lists compiled and publicly posted. We welcome all to freely reference and use this as well as any/all posted materials.
